CAREER OBJECTIVE

Generative AI Engineer with hands-on experience building LLM-powered applications, RAG pipelines, and multi-agent systems. Skilled in LangChain, LangGraph, LlamaIndex, Hugging Face, vector databases. Strong in Prompt Engineering, agent orchestration, and function calling. Currently pursuing MCA (Generative AI) with focus on Foundation Models and production-ready AI systems.

EDUCATION

- **Master of Computer Applications (Generative AI)** - Alliance University, Bengaluru [2025 - Present]
SGPA: 8.7 (Up to 2nd Semester)
- **Bachelor of Science (Computer Science)** - KPR College of Arts Science and Research, CBE, [2025]
CGPA: 7.6

TECHNICAL SKILLS

Generative AI: LLMs, Foundation Models, Transformer Architectures, Multimodal Models, Prompt Engineering, Context Engineering, Model Fine-tuning, RAG, Graph RAG, Knowledge Graphs

Agentic AI: Autonomous AI Agents, Multi-Agent Systems, Agent Orchestration, Function Calling, Tool Integration, Planning & Reasoning Agents, Human-in-the-Loop, Workflow Automation

Frameworks & Libraries: Python, LangChain, LangGraph, LlamaIndex, Hugging Face, PyTorch, CrewAI, Transformers, scikit-learn, NLTK

Vector: ChromaDB, Embedding Models, Semantic Search, Hybrid Search

Cloud & Tools: Docker, REST APIs, Google Cloud, Google Cloud(ADK), LLMOps concepts, Git

Databases : MongoDB, Vector Database, MySQL, Firebase

Languages: React.js, Node.js, JavaScript, HTML, CSS, Java

PROJECTS

1. Finance Wizard - AI Finance Controller | Python, FastAPI, Groq LLM (Llama 3.3), React, AI Agent, Multi-Phase Pipeline, SQLite(AES-256-GCM), Pandas

Built an autonomous reconciliation engine for Razorpay merchants to explode lumped T+2 bank transfers into order-level fees, deploying a zero-hallucination Llama investigator and 25-day cash forecasting with 85%+ auto-approval.

2. Toolkit DataSage | Python, LangChain, LangGraph, LlamaIndex, Google Gemini, Hugging Face, ChromaDB, Multi-Agent Orchestration, Function Calling

Developed an AI-powered productivity platform integrating 70+ smart tools with intelligent data analysis, real-time insights, and personalized workflow automation using RAG pipeline.

3. Bank Cheque Audit | Python, PyTorch, CrewAI, Hugging Face, Groq API, OpenCV, Siamese ResNet-50, Gradio, Human-in-the-Loop

Built an OpenCV-based signature verification system with dual-threshold cheque classification and an interactive Gradio interface.

4. Opinion and Vibe Checker | Python, LangChain, ChromaDB, Hugging Face Transformers, NLTK, MySQL, REST APIs

Built an end-to-end data pipeline pulling comment data via API, cleaning and structuring it in MySQL, and NLP sentiment classification to surface actionable audience insights on a dashboard.

INDUSTRIAL TRAINING AND EXPERIENCE

FacePrep Campus | Nov 2024 - Jun 2025 [7 Months]

Tracked and managed a weekly pipeline of 100+ prospects using spreadsheet-based tracking, reviewing follow-up timing and response patterns to prioritize outreach toward higher-intent leads.
